**Subject:** RE: Tradebe permit status

We just received the response to the Part B Permit and NOD modifications. Ruth and others will begin review promptly.

As for the SDS exemption, we look forward to receiving EPA comments on this matter.

Craig, Thank you for the updated information.

We are still in the process of communicating with HQ about the exemption status of the Tradebe's SDS exemption unit.

Jae, We received the renewal permit from Tradebe on 7/29/16. Ruth responded with a Notice of Deficiency (NOD). We expect to receive the response to the NOD this week from Tradebe. We are on track to approve the permit, but it probably won't be final until sometime in the spring of 2017.

Ruth seems out of office until 11/14.

Do you might have an answer for the question below?

Ruth,

Do you have any specific target date for the issuance of draft RCRA permit to Tradebe?

The current State RCRA permit expires in December 2016.

We are still working with HQ about the permit/exemption issue of the Thermal Desorption Units that process hazardous waste.
